## INVENTORY:

0LOCK INFO:

1. PLEASE take your time as you reset the locks for your activity. Read ALL the directions given and ask me LOTS of questions if you aren't sure about how to reset one. I would love to help you with this, as the locks are expensive and I would like to have staying power throughout different escape rooms.
2. Write your combinations down on the sheet provided so we have a log. THIS IS VERY IMPORTANT. DO NOT FORGET THIS STEP.
3. Test all your locks before you begin the escape room with your kids. The directional lock in particular is one that needs a bit of practice.
4. Reset all locks back to their original combination before turning in. You can find the original combo on the top of the lock log. If you need help, please let me know!
